WEDNESDAY, MAY 5.

The republican congressional campaign committee met Monday evening and elected an executive committee to conduct the coming congressional campaign, of which Representative Goff, of West Virginia, and Hon. Edward McPherson, of Pennsylvania, were elected chairman and secretary respectively.

Chicago elevators, as per official returns, contain 11,035,382 bushels of wheat, 4,343,637 bushels of corn, 135,807 bushels of oats, 186,632 bushels of rye, and 54,881 bushels of barley, making a grand total of 16,026,600 bushels, against 16,220,020 a week ago, and 16,411,933 bushels at that period a year ago. Visible supply of grain in the United States and Canada on the 1st instant: Wheat, 43,249,007 bushels; corn, 11,794,800 bushels; rye, 300,157 bushels; barley, 694,846 bushels. During last week wheat decreased 1,305,885 bushels; corn, 1,788,952 bushels and oats 33,747 bushels; rye increased 1,634 bushels and barley 119,567 bushels.—*Chicago Journal*.

Without any previous notice the Signal Service Bureau has changed its compilation and publication of weather predictions on a new plan, which, it is believed, will meet with general favor. Instead of announcing what the weather is likely to be in the various geographical divisions of the country, as the New England States, the South Atlantic States, the upper lake region, etc., the predictions will hereafter be made for each state, grouping together, from day to day, such states as are likely to have the same weather. Whenever necessary, predictions will be made for different portions of the same state. The Signal Service officers say that the average man will more readily understand and appreciate a prediction applied to his state than one concerning a group of states, and the new plan will, we think, prove popular.

The Madison Journal, of last evening, speaks the sentiments of every true citizen when it says: "The state troops made a grand mistake at Milwaukee, this afternoon, in firing over the heads of the mob, when attacked by the latter, with brick-bats. If the provocation was severe enough to warrant a return volley, it was severe enough to warrant a deadly fire. Militiamen should never shoot with out killing. It is this habit of theirs to fire blank cartridges or over the heads of rioters, this childish fear of hurting some one, that has too often caused rioters to anger at state troops and be encouraged to attack them. When it comes to be the practice of the militia to fire straight at the breasts of the enemy, then it will be respected, and not till then. "Shoot to kill, every time," should be the watchword of the soldiers. It is the quickest way in the end, and the most humane, as well, Anarchists deserve no sympathy in a free country. When they act so that it becomes necessary, and call out troops against them, as a last resort, the command goes out to fire, then let that command mean death. That is the way to eradicate anarchism in a free country, where it is an imported weed to be plucked up by the roots without mercy."

GOV. RUSK AND THE MILITIA.
The Milwaukee Sentinel: Gov. Rusk has, as usual, proved himself fully equal to the emergency. At the first intimation of a violent outbreak in this city, he gathered his military staff and came upon the scene, ordered out the militia and had it where it would do the most good. His promptness undoubtedly prevented a far more serious condition of affairs. If he had delayed, as the governor of Illinois did at East St. Louis, there would have been bloodshed yesterday morning at the rolling mills and an inexcusable amount of damage to property. Monday night he went over the situation thoroughly and when yesterday morning dawned he was ready with the militia. This morning he is fully prepared to crush any lawless gathering. The mob is to be handled without glovers to be made any further demonstrations.

The militia is entitled to great credit for its excellent bearing yesterday. The young men of the Fourth Battalion were sore pressed by the exasperating mob, but they kept cool. The Polish company Kosciusko guards, was the object of particular hatred among the Polish strikers, but they bore themselves patiently in spite of the taunts and threats, and even after Capt. Borchard had been struck by a stone.

Bought a Farm.

John M. McDowell, one of the principal holders of ticket No. 13,700 in November drawing of the Louisiana State Lottery which drew \$75,000, has invested a portion of his proceeds in a tract of land near Orléans and adjoining his own farm. He purchased 54 acres more or less, being the Jack Keaton farm, of Albert Wheeler, for which he paid \$30 per acre. Since he made his successful draw in Louisiana, John has been showing notes at a lively rate, and has cleared over the past few months nearly \$1,000. Just now for a moment and estimate the profit on his investment on that 54 acre tract in the Louisiana Lottery last fall. *Mount Olive (Ky.) Tribune*, March 11.

LAWLESSNESS RAMPANT.

A DAY OF TERROR AT CHICAGO AND MILWAUKEE.

CLOSED BY A BLOODY AND DEADLY FIGHT IN THE FORMER CITY—ANARCHIST SPEECHES

Result in a Furious Attack on the Police in Chicago—An Unknown Number of Officers and Strikers Killed and Wounded.

The Explosion of a Bomb Starts the Fight—The Mob at Milwaukee Fired Upon by the Military—Emergency Measures Taken to Stop Further Outbreaks—Strikes in Railway Circles—Review of the Field.

CHICAGO, May 5.—The disorder that has been ripe on the west side in this city for the past two days culminated Thursday night, in a riot that caused the lives of several policemen, and an unknown number of the strikers. At 8 p.m. 3,000 men and boys stood around a pile of barrels and boxes on Desplaines street between Randolph and Lake streets. Angus Spies, the editor of The Arbeiter Zeitung, the Anarchist organ in this city, stood upon the rough platform. He made a brief speech to the crowd and then introduced A. K. Parsons, one of the pronounced leaders of the movement. The latter told his hearers that in the struggle for eight hours pay freight-hands' work statistics proved that workingmen to-day were only getting sixteen hours' pay for ten hours' work. He advised them to

MERIT FOUGHT WITH FIRE,

and asserted that the anarchists of the city were full of Gatling guns and munitions to shoot down workingmen. When the laborers petitioned for redress of grievances he was met by the military and it was probable that their guns would be turned upon the workingmen before many hours. He closed his remarks by advising the working people to be prepared for all emergencies.

Surmed Fielder, another Anarchist, followed in a similar fiery tone. While Parsons was addressing a crowd, a bomb exploded in the rear of the hall, and it took to flight as though a cyclone was among. A movement was made to go to a half, but the crowd passed over and the crowd remained. Fielder continued with a shrug of his shoulders and a sneer in his voice:

"THE AIR IS FILLED WITH PEACE!"

The capitalists know it. Martin Ryan of Cleveland, a man chosen to negotiate for the strikers, has declared that when capitalists are as numerous as they are it is unsafe for them to be in a place where labor is dissatisfied, that is their only hope. That they will surely come.

A HAND-TO-HAND BATTLE.

As the Anarchists concluded a body of men were already approaching in increased numbers. It appeared like a phalanx of Masons returning from a private assembly or drill. The soldiers on their approach or drill, the Anarchists, shouting and firing in back; says he knew nothing of disturbance till he was shot. Emil Lotz, 40 years old, 25 North Halsted, steamer-boat dock, shot in head. Peter Loy, 25 West Huron street; shot in back, will die. Gustav Gralig, carpenter, clubbed on head. R. L. Plant, East Park, Ind., 34 years old; broken and shot in shoulder; bad case; says he was a mere looker-on. Robert Schmitz, waiter, worked at 103 Ashland, was shot in the leg. Andy Chase, bartender at the Union Hotel, shot in the head. The police were held in check by a strong party while standing in front of the saloon.

Col. Knox, of the First regiment, has 400 men in readiness at their armory, and a new Gatling gun has been presented to the command. Mr. Tolsey has a company of artillerymen guarding the Gatling gun at the battery armory.

The tragedy was the outgrowth of the riot on Wednesday, a day ago, when it took to flight as though a cyclone was among. A movement was made to go to a half, but the crowd passed over and the crowd remained. Fielder continued with a shrug of his shoulders and a sneer in his voice:

"REVENGE! WORKSMEN, TO ARM!!!"

"Your masters sent out their bloodhounds, the police, they killed six of your brothers at McCormick's this afternoon. They killed the poor workers because they, like you, had the right to work, and the right to live. Your leaders? They killed them because they did not work for you. They killed them to show you 'free Americans' that you must be satisfied and contented with whatever your bosses command to allow you, or you will get killed!"

"You have for years endured the most abject humiliations, you have suffered the most unmeasurable indignities; you have worked yourself to death; you have endured the pangs of want and hunger; your children you have sacrificed to the factory lords; in short, you have been miserable and odious slaves all these years. Why? To satisfy the insatiable greed, to fill the coffers of your lazy, thieving masters!"

Tuesday night a riot was followed by the following: One bomb was thrown, broadcast through the streets of the city.

The "American" newspaper, Green Bay, was to be closed, and the editor, Mr. Tolsey, was to be arrested.

The "Daily Leader" was to be closed.

The "Daily Leader" was

BRIEFS.

—Wisconsin Lodge No. 14, I. O. O. F.,
occupy Odd Fellows hall this evening—
regular weekly meeting.

—Several members of the Guards and
Rifles who were out of town yesterday,
and so could not go with the companies,
started for the scene of the strike this
morning.

—Elijah Wells will hold a confirma-
tion service in Christ church this (Wed-
nesday) evening at 7:30 o'clock, and on
tomorrow (Thursday) evening like ser-
vices will be held in Trinity church.

—In the municipal court this morning
Albert Geiser was put under bonds of
one hundred and fifty dollars to appear
on May 14th and answer to the charge of
receiving stolen money amounting to
twenty dollars.

—Some of the horses that are driven
on drays here are in such condition as to
be a disgrace to the city. There is no
human society here, but something
should be done to compel the owners of
these poor animals to take better care of
them.

—Sheriff Hawthorn was in Shuron this
morning serving summons on parties in-
terested in the case of Eva Lenavit
against the Chicago & Northwestern road.
The plaintiff is administratrix of the estate
of her husband who was killed by the
cars some time ago and this suit is to re-
cover damages on account of the death.

—While the troops are in the field,
Governor Rush should proclaim martial
law in Milwaukee, giving the "Socialists",
not more than fifteen minutes to "town
the red dog," at the expiration of which
time the troops should be ordered to
shoot down every person following that
of martial law. It is borne by a
disreputable class of outlaws not wanted
on this continent.

—The Rev. Mr. Pullen, rector of Christ
church, spent last Sunday at Houghton,
Michigan, and during his absence his
family received a telegram announcing
the death of his youngest brother who
resided with his parents in Berrien coun-
try, Michigan. Mr. Pullen returned this
morning from Houghton too late to
attend the funeral, which takes place
to-day.

—It's hard for a newspaper to satisfy
every one. One editor tells how a "con-
stant reader" in search of useful infor-
mation recently addressed a communica-
tion to a western paper asking what is
the characteristic feature of summer in
this country. The editor calmly answered
"heat," in the next issue, and the
constant reader got wrath and told the
editor he would never read his measly old
paper again. He now writes letters to
the opposition paper under the signature
of "Vindex."

—The great strike in Milwaukee and
Chicago is the general topic of conversa-
tion among all classes of our citizens.
At this time Janesville is deeply inter-
ested in affairs at Milwaukee, as two of
the military companies on duty in that
city belong to us, and therefore everyone
is eagerly watching the bulletin boards
for every word of news from that quarter.
The news of the little conflict at Bay
view this morning was received here at
ten o'clock and was immediately placed
upon the Gazette bulletin boards, where
crowds gathered eager to learn the very
latest news. The Gazette, of this even-
ing, contains the latest news obtainable
from the troubled districts.

—Dr. Hawley has purchased Leroy
Holloway's well known Almont man-
ufacturer, paying for her two hundred and
fifty dollars. Mrs. is the mother of Mr.
Holloway's son "Edgewood," now at-
tacting so much attention for his won-
derful speed and other excellent qualities.
The mare has good breeding on
both sides, reaching back several genera-
tions, and without having had any train-
ing can now beat a three minute gallop, and
it is thought she shows promise of going
fast. "The doctor likes her, anyway, and
with a new cart from Buehholz's estab-
lishment, feels well equipped to get
around the city and country quite as fast
as necessary.

—The report published in the Gazette
last evening to the effect that the Mad-
ison company was tired into with fatal
results proved to be without foundation,
although the same report was current at
Waukesha, Milton, Monroe and other
towns along the line. The special was
sent to the Gazette office at 4:30 from
what was considered reliable authority.
In exciting times like the present, the
widest rumors frequently assume au-
thority. While the state militia are sol-
diers called upon for active service, the
fact should not be overlooked that the
organization means business and would
be valueless if not available in an emer-
gency. Every soldier who has a boy
enrolled on the list of militiamen looks
upon him with pride on dress parade,
but scorns all sentiment when called
to active service, realizing that in the
performance of responsible duties, he is
simply filling the place which he has
assumed by voluntary action. The sober
second thought of every mother who
feels solitaire for her boy while on duty,
says, be loyal and courageous. Reports
from Milwaukee to-day indicate that the
state militia are doing good work and
that Governor Rush appreciates the sit-
uation and proposes to protect property
and control the mob.

—Mr. and Mrs. Geo. Kemp, of New
York, with their son and daughter, spent
Monday night in the city the guests of
Mr. and Mrs. Wm. H. Tailman, of the
fourth ward. They had the pleasure of
meeting a number of old time Janesville
friends in the evening, who called to
renew the acquaintance of early days.
Mr. Kemp will be remembered by old
residents as the founder of the Empire
drug store on Main street. In 1851 he
sold his business interests here to his
brother, and Mr. Wm. Tailman, and
located in New York City, engaging in
the same line of business. From a small
beginning he has worked his way up
until to-day he is recognized as one of
the largest importers of drugs in the
country. He is also a very extensive
exporter, being the sole manufacturer of
Kemp's Florida water, which has a world
wide reputation. His goods, for
the export trade, are manufactured
in a bonded ware house built
expressly for his use, and protected
by special legislative enactment, furnish-
ing employment for a large force of
workers directly, and indirectly to a mil-
lion. The export trade is carried on
through persistent energy.

—The Weather.

At seven o'clock this morning the ther-
mometer indicated 15 degrees above zero.
Partly cloudy with east wind. At
one o'clock p. m. the register was 74 de-
grees above zero. Partly cloudy with
southwest wind. For the corresponding
days one year ago the register was
55 and 53 degrees above zero.

—It will pay our readers to look over
the new advertisement of E. J. Green,
23 West Milwaukee street. He always
has some bargains in crockery that will
pay them to examine. Anyone wishing to
buy a baby carriage or flower pots cannot
afford to purchase without first examining
his stock.

—Elicampane Cough Syrup Eldredge
keeps it.

—For Sale—House and lot in third
ward, for \$400. The lot is full of nice
fruit.

—WHEELER & STEVENS.

—The Gazette has acquired a very
handsome fortune. His family and two
or three intimate friends started from
New York about six weeks ago for Cali-
fornia. Vanderbilt's private car "Wander-
er" was placed at their disposal, and the
trip has been a very enjoyable one. On
the return trip the car was held in
Milwaukee a day or two while Mr. Kemp
and his family visited Janesville. After an
absence of twenty-one years the
gentleman pronounces the Bower
City a gem, finding many landmarks to
remind him of old times. The party
went to Chicago over the Chicago, Mil-
waukee & St. Paul road at 9:10 yesterday
morning, and from thence directly home.

CLINTON JUNCTION, May 5—[SPECIAL].
The village election yesterday was won-
derfully close between license and no-
licensing. It was held under the state
law providing for local option. The no-
licensing party elected their president four
out of the six trustees; the police just-
ice, the supervisor and the constable.
The vote on Treasurer was a tie, and
was decided by C. P. Drane being chosen.
